

Total solution for the fenestration industry

GEETA Aluminium Company Pvt. Ltd.

**Complete Range of
Aluminium Window & Door Systems.**

www.geetaaluminium.com

& The Journey Began...

It all began in 1964 with the singular vision of **Shri Girdharilal Bhagwandas Bajaj**, the founder of Geeta Group. For thirty years, he laid a strong foundation for the growth and development of aluminium fenestration, a concept which is in great demand in the industry today.

Following the path laid down by our visionary founder, Geeta Group has now evolved into one of the best system window companies in the country. Not only do we have a strong hold in the Indian Aluminium industry but we are also considered to be the most renowned brand when it comes to marketing, distribution and retail of Aluminium System Windows and Doors across India.

Geeta Group has been built on the foundations of a skilled workforce coupled with ceaseless technological innovation. We pride ourselves on providing readily available customized solutions throughout the country and aim to continue delivering superior service through strong supply-chain management, regional warehouses and an efficient after-sales support system.
